Connecting Vermont's  
Manufacturing Supply Chain

## VERMONT'S MANUFACTURING SUPPLY CHAIN SOLUTION

CONNEX Vermont is an online platform that connects all Vermont and U.S. manufacturers and suppliers into a single, accurate, searchable supply-chain database.

CONNEX Vermont solves many of the current supply chain issues by intelligently connecting small American manufacturers and suppliers to large primes, OEM's and government buyers based on deep data such as equipment, certifications, capabilities and more.

Manufacturers and suppliers can quickly post and respond to needs, visualize supply chain risk, search for qualified suppliers and instantly discover new business opportunities.

## CENTRAL DATABASE OF 145,000 U.S. MANUFACTURERS

CONNEX Vermont contains dynamic data on over 145k U.S. manufacturers and suppliers. Manufacturers own and maintain the data, ensuring that it's the most accurate and up-to-date platform within the industry.

## PRIME FEATURES

### *Exclusive Tools for Primes, OEMs and Tier 0-1 Manufacturers*

- Find qualified suppliers based on in-depth capabilities such as: equipment, capabilities, materials, certifications, SBA-designations, location and more!
- Verify suppliers and manufacturers via U.S. Gov blacklists from the Dept of State, Dept of Commerce, and Dept of Treasury
- Send RFIs, RFPs, and RFQs to only the most qualified candidates
- Host virtual events to meet and interview qualified suppliers
- Analyze supply chain risk through visualization tools. Automatically find similar alternate suppliers to mitigate your risk.
